

Moritz Philipp HAAF, BSc MA

Sports Data Scientist & Analyst

Personal Motto:

"Without data you're just another person with an opinion." ~ by W. Edwards Deming

Football data analyst focused on reproducible pipelines and coach-ready tools. I turn open match/event data into scouting, opponent, and set-piece insights using Python/SQL (DuckDB) with Streamlit and Power BI/Tableau. I publish open-data case studies (xG baseline, passing networks, shot maps) and take on small freelance projects.

Work Experience

01/2025 - current

PUBLICIS MEDIA AUSTRIA / PUBLICIS GROUPE

Senior Digital Data & Dashboard Manager

- Lead dashboard development and analytics engineering in Salesforce Marketing Intelligence (Datorama) for international stakeholders: build Data Streams/TotalConnect pipelines, harmonize taxonomies, automate refreshes.
- Implement calculated metrics and dimensions using Datorama's JS-style expression language;
- use Python for targeted ETL/QA and API utilities.
- Design cross-source data models and reusable components; maintain a metric dictionary, naming conventions, and QA/alerting for consistent reporting.

04/2024 - current

Freelancer

Sports Data Scientist & Analyst

- Build end-to-end football-analytics prototypes on open data (FBref, StatsBomb): data ingestion/cleaning in Python + SQL/DuckDB, analysis, and publication via Streamlit and Power BI/Tableau.
- Train and evaluate a baseline xG model; derive player/team metrics (passing networks, shot maps, possession-adjusted comparisons) with methods documented in repo READMEs.
- Produce season case studies (e.g., Bundesliga 2023/24) to demonstrate workflow and reporting style.
- Portfolio: itzmore.dev · Upwork · Malt.

08/2022 - 04/2024

RED BULL MEDIA BRAND NETWORK | RED BULL MEDIA HOUSE

Digital Competence Specialist

- Optimization of advertising monetization and analysis of digital user data.
- Management of advertising campaigns in Google Ad Manager for YouTube & Red Bull platforms.
- Implementation of new ad formats & technical solutions in collaboration with internal teams.

10/2021 - 09/2022

SPORTRADAR AG | SPORTRADAR MEDIA SERVICES GMBH

Manager Digital Advertising

- Development of audience segmentation models to improve advertising strategies.
- Optimization of programmatic advertising through data analysis & machine learning.
- Execution of A/B testing and performance analysis for digital campaigns.

06/2021 -08/2022

HAWK-EYE INNOVATIONS LTD | Freelancer

Football Systems Operator

- Operated VAR/replay systems for Austrian Bundesliga & UEFA fixtures for the Austrian Bundesliga & UEFA competitions.
- Replay Operator for professional football matches, supporting decision-making through video technology.
- Application of project management skills to optimize sports technology processes.

02/2019 - 09/2022

E2 COMMUNICATIONS GMBH

Oddsserve & Ad Operations Manager

- Managed ad campaign setups and operations across platforms like Adition, Epom, and Adform, using data analytics to optimize performance
- Developed and maintained client websites using WordPress, integrating analytics to enhance user engagement and conversion tracking
- Supported key account management and project execution, implementing data-driven reporting mechanisms to improve campaign insights and decision-making

08/2016

TORALARM GMBH

Internship

- Assisted in User Growth & Sales, contributing to strategic initiatives to enhance user acquisition
- Participated in product development, particularly in integrating Amazon Alexa skills, enhancing product usability and expanding market reach

Education

Master - MSc AI Applied to Sports

Sports Data Campus - UCAM
(2025 - 2026; in progress)

ML/DL, Computer Vision, NLP/LLM; plus Data Eng/MLOps (Python, SQL/DuckDB).
Football analytics focus: recruitment/scouting, opponent & set-pieces, performance;
BI/storytelling (Streamlit/Power BI).
Capstone: club-facing project on event/tracking data with a reproducible, evaluated pipeline.

Master - MA in Business

FH St. Pölten (2019-2021)
Digital Media Management

Master Thesis: "GDPR Compliance of alternative Webtracking Methods"
(Overall Grade: 1.9 - Passed with Merit)
Minors: Innovation & Business Dev. + Content & Programme Mgmt

Bachelor - BSc (WU)

WU Wien (2014-2018) - BWL

Bachelor Thesis: "Integration of Migrants through Team Sports"
(Overall Grade: 2.3); Exchange Semester: Birmingham UK (Aston University)
Minors: Service & Digital Marketing + Accounting & Taxation

Technical Skills

Data Science & ML

Python (Pandas, NumPy, scikit-learn),
SQL (PostgreSQL/DuckDB), Jupyter; R

Football Analytics

xG baseline, passing networks, shot/heat maps, opponent

Data Visualization

Power BI, Tableau, Looker Studio, Datorama

Cloud & DBs

BigQuery/Google Cloud, SQLite/DuckDB

Ad Tech

Google Ad Manager, Adform, Adition, Epom,
Piano Analytics, Google Analytics

Core Competencies

- Data-Driven Decision Making & Dashboard Development
- Cross-Functional & International Team Collaboration
- Sports Technology, Tracking & Event Data, Replay Systems
- Agile Project Management (SCRUM)

Certificates

Codecademy:

- Professional Certificate Data Scientist
(Data Analytics, Machine Learning, Business Intelligence)

Datacamp:

- Professional Certificate Data Analyst
- Professional Certificate Data Scientist

Google Analytics:

- Individual Qualification
- Advanced GA Certificate
- Internal GA4 Training at Red Bull (02/24)
