

# Moritz Philipp HAAF, BSc MA

## Sports Data Scientist & Analyst

### ABOUT ME

Football data scientist building reproducible pipelines and coach-ready tools, from open event data to broadcast and 3D tracking. I derive scouting, opponent, and physical-performance insights with Python/SQL (DuckDB), computer vision (YOLOv11, ByteTrack), and production ML on AWS (SageMaker, Bedrock), delivered via Streamlit and Power BI/Tableau.

## Work Experience

01/2025 - current

PUBLICIS MEDIA AUSTRIA / PUBLICIS GROUPE

### Senior Digital Data & Dashboard Manager

- Lead dashboard development and analytics engineering in Salesforce Marketing Intelligence (Datorama) for international stakeholders: build Data Streams/TotalConnect pipelines, harmonize taxonomies, automate refreshes.
- Implement calculated metrics and dimensions using Datorama's JS-style expression language;
- use Python for targeted ETL/QA and API utilities.
- Design cross-source data models and reusable components; maintain a metric dictionary, naming conventions, and QA/alerting for consistent reporting.

04/2024 - current

Freelancer

### Sports Data Scientist & Analyst

- Build end-to-end football-analytics prototypes on open data (FBref, StatsBomb): data ingestion/cleaning in Python + SQL/DuckDB, analysis, and publication via Streamlit and Power BI/Tableau.
- Train and evaluate a baseline xG model; derive player/team metrics (passing networks, shot maps, possession-adjusted comparisons) with methods documented in repo READMEs.
- Produce season case studies (e.g., Bundesliga 2023/24) to demonstrate workflow and reporting style.
- Portfolio: itzmore.dev · Upwork · Malt.

08/2022 - 04/2024

RED BULL MEDIA BRAND NETWORK | RED BULL MEDIA HOUSE

### Digital Competence Specialist

- Optimization of advertising monetization and analysis of digital user data.
- Management of advertising campaigns in Google Ad Manager for YouTube & Red Bull platforms.
- Implementation of new ad formats & technical solutions in collaboration with internal teams.

10/2021 - 09/2022

SPORTRADAR AG | SPORTRADAR MEDIA SERVICES GMBH

### Manager Digital Advertising

- Development of audience segmentation models to improve advertising strategies.
- Optimization of programmatic advertising through data analysis & machine learning.
- Execution of A/B testing and performance analysis for digital campaigns.

06/2021 -08/2022

HAWK-EYE INNOVATIONS LTD | Freelancer

### Football Systems Operator

- Operated VAR/replay systems for Austrian Bundesliga & UEFA fixtures for the Austrian Bundesliga & UEFA competitions.
- Replay Operator for professional football matches, supporting decision-making through video technology.
- Application of project management skills to optimize sports technology processes.

02/2019 - 09/2022

E2 COMMUNICATIONS GMBH

### Oddsserve & Ad Operations Manager

- Managed ad campaign setups and operations across platforms like Adition, Epom, and Adform, using data analytics to optimize performance
- Developed and maintained client websites using WordPress, integrating analytics to enhance user engagement and conversion tracking
- Supported key account management and project execution, implementing data-driven reporting mechanisms to improve campaign insights and decision-making

08/2016

TORALARM GMBH

### Internship

- Assisted in User Growth & Sales, contributing to strategic initiatives to enhance user acquisition
- Participated in product development, particularly in integrating Amazon Alexa skills, enhancing product usability and expanding market reach

## Education

### Master - MSc AI Applied to Sports

Sports Data Campus / UCAM  
(2025 - 2026; thesis in progress)

ML/DL, Computer Vision, NLP and LLMs, GenAI, Data Engineering/MLOps, opposition intelligence (multi-agent RAG). Final Master's Project: "Pitch Control from Broadcast Video", player-tracking pipeline (YOLOv11 + ByteTrack), camera calibration (TVCalib), Shaw TTI pitch-control model; validated on SoccerNet GSR 2024

### Master - MA in Business

FH St. Pölten (2019-2021)  
Digital Media Management

Master Thesis: "GDPR Compliance of alternative Webtracking Methods"  
(Overall Grade: 1.9 - Passed with Merit)  
Minors: Innovation & Business Dev. + Content & Programme Mgmt

### Bachelor - BSc (WU)

WU Wien (2014-2018) - BWL

Bachelor Thesis: "Integration of Migrants through Team Sports"  
(Overall Grade: 2.3; Exchange Semester: Birmingham UK (Aston University))  
Minors: Service & Digital Marketing + Accounting & Taxation

## Contact

### Phone

+43 664 404 38 64

### Email

itzmore.dev@gmail.com

### LinkedIn

linkedin.com/in/moritz-philipp-haaf

### Portfolio Website

itzmore.dev

## Technical Skills

### Data Science

Python (pandas, numpy, scikit, pytorch, keras),  
SQL (PostgreSQL/DuckDB), Jupyter; R

### Football Analytics

xG baseline, passing networks, shot/heat maps, opponent

### Data Visualization

Power BI, Tableau, Looker Studio, Datorama

### Cloud & DBs

AWS (S3, Sagemaker, Bedrock, EC2), Docker,  
Google Cloud, SQLite/DuckDB

### Computer Vision

YOLO, ByteTrack, TVCalib, pitch control, 3D data

## Featured Project

AWS World Sports Innovation Cup 2026

Finalist @ DFB Campus, Frankfurt

- Built the "Football Body Intelligence Platform" deriving two proprietary metrics from TRACAB TF15 3D skeleton tracking: scanning frequency via head rotation) and Pressing Quality Index
- End-to-end production pipeline on AWS:  
S3, SageMaker (10 parallel training jobs), Bedrock (Nova Lite), Docker, Streamlit dashboard.

## Certificates

### Codecademy:

- Professional Certificate Data Scientist  
(Data Analytics, Machine Learning, Business Intelligence)

### Datacamp:

- Professional Certificate Data Analyst
- Professional Certificate Data Scientist
